

***LECTROMAX* 100 SERIES
DEMAGNETISERS**

LECTROMAX 100 Series of demagnetisers include a range of standard demagnetisers in various sizes, voltages and intensities.

A range of standard optional accessories is available.

In addition, special purpose demagnetisers can be manufactured to suit particular applications, including high intensity air cooled types for continuous or intermittent duty.

Continuous duty demagnetisers can be supplied for integrating with conveyor systems.

Intermittent duty demagnetisers are fitted with a 60 second timer, which automatically controls the energised period.

The timer incorporates a panel mounted digital display, which indicates the elapsed time.

All ***LECTROMAX*** demagnetisers are conservatively designed for maximum operating efficiency and long life.

LECTROMAX 100 SERIES

DEMAGNETISERS

SERIES	THROAT W x H	SUPPLY VOLTAGE	DUTY	PEAK AMP TURNS
100-1515-240C	150mm x 150mm	240	CONT	5,000
100-35-240C	350mm diameter	240	CONT	6,000
100-35-415	350mm diameter	415	INT	12,000
100-3030-240C	300mm x 300mm	240	CONT	5,000
100-3030-415	300mm x 300mm	415	INT	12,000
100-3535-240C	350mm x 350mm	240	CONT	4,500
100-3530-415C	350mm x 300mm	415	CONT	12,000
100-3530-415	350mm x 300mm	415	INT	18,000
100-4545-415	450mm x 450mm	415	INT	10,000
100-6060-415	600mm x 600mm	415	INT	10,000

All voltages at 50Hz. 60Hz types also available.

Other sizes and intensities, including specialised on site pipe demagnetisers, can be

OPTIONAL ACCESSORIES

OPTION 100-01 Stainless steel chute, for use with gravity feed systems.

OPTION 100-02 Stand, with adjustable height and tilt.
Allows demagnetisers to be free standing and tilted for gravity feed.

OPTION 100-03 Track and roller carriage system.
Facilitates the traversing of heavy components up to 50kg through the demagnetiser throat and beyond its influence.
Suitable for use with Series 100-4545, 100-6060.
